Migna Sri's Story

Migna Sri is an IT Centre student. Our IT teacher, Prithviraj, sent us a few words she had to say about her experience:

‘Before I joined the IT Centre, I had seen the computer only on TV. If I hadn’t attended the class, I wouldn’t have even seen what a computer looks like. I joined a computer class and developed basic computer skills. This is not possible without Laia Foundation and Indian Futures. Thank you so much’.

‘This is a gift for students like me.’

Robert Lodge Welcoming Event

TABLE-TOP SALE
AT ROBERT LODGE

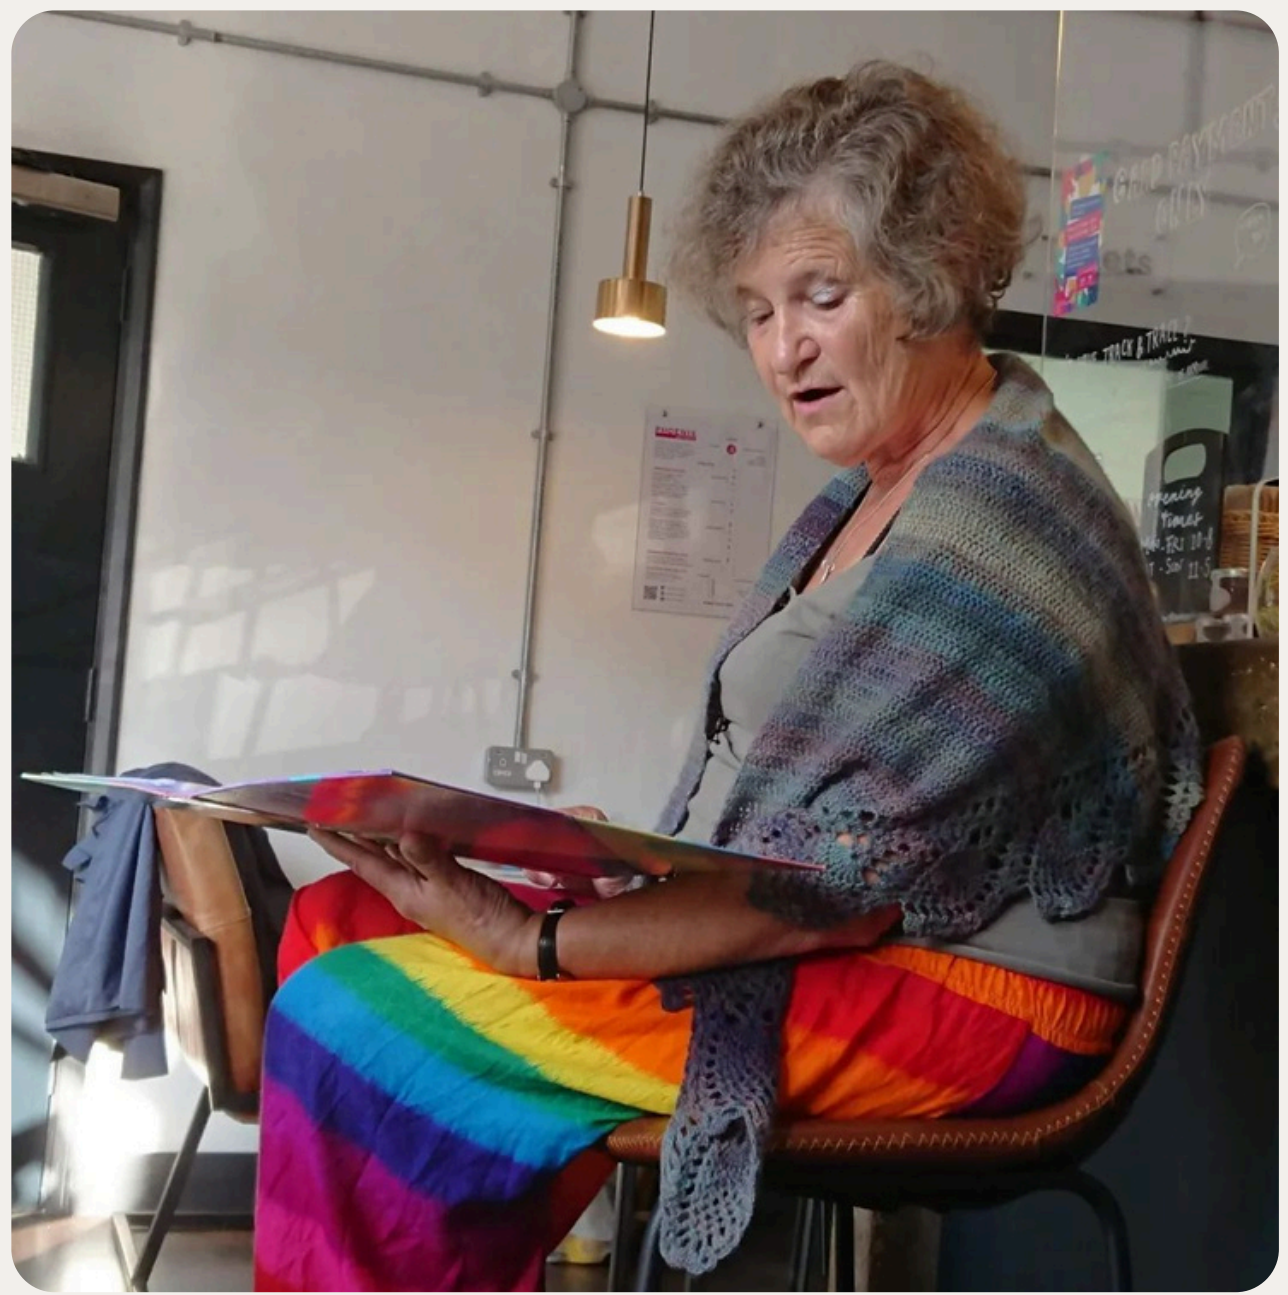

6th April
11 am to 1 pm

Indian Futures will be hosting an event to welcome neighbours of our new office space at Robert Lodge and explain who Indian Futures are. On 6th April, residents are invited to join us for a table-top sale, where we will be selling second-hand clothes and books and speaking about the work we do. We are very excited about our new office and can’t wait to meet the local residents over a cup of tea!

Inspired by Love

Indian Futures will be holding an event at Manor Road Gym on 20th April 2:30-5pm, all about love! Alanna will be reading her poetry, along with others sharing their spoken word. We will also have music played by local musicians and singers.

We are very excited to have Poppy back with her SareeNaSorry funshop. Poppy invites attendees to join her in sharing the love of draping a saree as an art form with people who may not have the opportunity to, and in a way that is respectful, increasing knowledge of the social context behind it.

Our video editor Gus will also be screening a very special recording to our Manor Road supporters which shows the brilliant work they have done to support Indian Futures and how grateful we are for their contributions and commitment!
