Our Values - Part 4

Openness & Transparency

We promote a culture of openness and transparency with our partners and communities in India, but also with our volunteers and funders in the UK and Spain. We are in constant dialogue with our Indian partners and keep our followers and donors up-to-date on our activities and projects through our website and social media outlets.

Brunswick Festival

We were back at The Brunswick Festival in Brighton to fundraise and spread the word of Indian Futures.

Ran by local volunteers, the vibrant festival is free to attend and offers a range of diverse stalls, live music and activities. Through sales of traditional

Indian items, a lucky dip and a donations box, Indian Futures stall raised a total of £300.

India News

The Desks are Here!

Thanks to our #Fundraiseforadesk online campaign in April last year, we raised £1,728 to improve the learning environment of the students at the after-school centre of Thandarai Pettai. The campaign saw Indian Futures, Futuraula and Sussex DevSoc join forces to challenge people to dance, run and have fun to raise money.

And finally... they have arrived! Our students are delighted with their 20 four-seater desks in their after-school centre!
