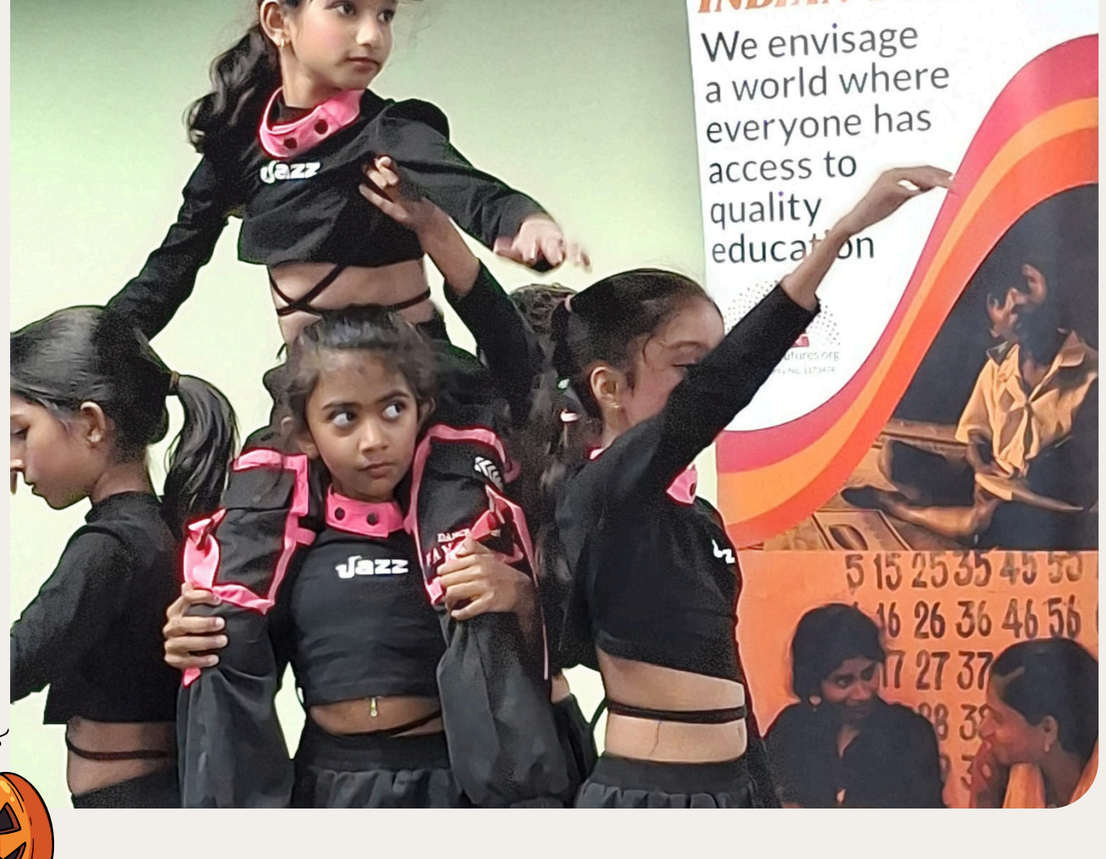
Teachers & Families' Meeting

One of Indian Futures' goals is **the promotion of quality education** in rural communities of Tamil Nadu. Quality education has many aspects and requires time, hard work and a firm belief in its long-term impact.

An important part of quality education is **community involvement**, and this would not be possible without the tireless (and often out of hours) work that our teachers do on the ground. Holding regular parents' meetings is one of their infinite responsibilities. Parents' involvement in their children's development is essential to extending **learning beyond the classroom**.

UK News

Delight in Dance


Our **Delight in Dance** event last Saturday attracted **over 50 people** from all parts of Brighton. Jincy's children's dance group delighted everyone with their Bollywood moves. Esther then treated us to some lively popular tunes, getting many of us up and dancing, while others enjoyed Alanna's mindful movement, Sue's flower making and Priyanka's henna workshops - a vibrant and colourful event that raised £350 towards the salary of our IT Teacher in Vedanthangal.
